PROSPECTUS

Welcome to

SUNDER DEEP WORLD SCHOOL GHAZIABAD

(Under the Aegis of Sunder Deep Educational Society)

Sunder Deep World School where excellence has always been the passion, embarked its journey in 2015. The school is now moving ahead with its Secondary wing. The current strength of the school is to achieve the physical, mental and spiritual potential in every child. The primary objective is to instill in all the children the qualities, values and attitudes of a successful contented life, by becoming a global citizen.

The desire for change leads to a revolution of ideas - but no revolution is fruitless without action. To bring about a revolution in education, taking care of the well being of the society as well, we have a system of education, Adoptive and Self learning through various modalities like flipped Classrooms SGL (Small Group Learning) & LGL (Large

Group Learning). where we aim to encourage the children for self study. Focusing on the system of learning, our teaching methodology is child-centric where the teacher is only guiding them the correct path towards excellence.

As a result of our continuous efforts, our students have been victorious not only in academics, but they have also made us proud by achieving gold, silver as well as the bronze medals in sports including Taekwondo and Judo Championships and Interschool Volley Ball Tournaments. (held at the State level,). The co-curricular activities have also brought out the hidden & innate talents amongst the students. Thus, help your child grow multi-directionally and be the writers of their own success to set a milestone in the history.

Sunder Deep World School caters to all the State-of-the Art facilities for holistic & Future Proof Education.

MISSION

VISION

To nurture Global citizens with Academic Excellence and Value based Education.

Message from Chairman

Sunder Deep World School is established with a mission to formulate the right kind of ideals in the growing future of our country at the very foundation years. It is said that “one's success is not determined by the work he does, but by the choices he makes”, so it becomes a vital responsibility of all of us to imbibe the true values in the young Scholars of the nation & future. The quality of education will decide the success of any nation and Sunder Deep World School prepares a scaffold for every child to reach his/her goal.

We try to build a learning environment in our campus where a child not only develops acquisitively but also socially by grasping the right ethics. The State of the art facilities including spacious, well ventilated and well

equipped classes, well stocked acoustic advanced library, auditorium and laboratories help in over all development of the child from both the aspects i.e academic & personal excellence.

We wish to provide future proof education to all our children and at the School & further prepare them for higher education at Sunder Deep Global University, so that the child grows beautifully as a global citizen with all 21st century core skills. We not offer K-12 education but erusion it with integrated approach offering myriad of UG & PG programmes at our various group of institutions.

- Mahender Aggarwal

Message from Head of Institution

In Sunder Deep World School you will find a place to grow, a place to connect and a place to belong. Here, we inculcate in every student a sense of confidence, a yearning for knowledge and love of learning that extends far beyond their school life.

With intellectual curiosity, creativity and problem solving skills, the child is prepared for rapidly changing times.

With the support of highly qualified and trained teachers, we constantly seek better ways to teach young minds, coming from all the sections of society,

by extending their areas of strength and supporting the areas of weaknesses.

We at Sunder Deep World School firmly believe in co-creation and with the collaboration, trust and support of parents, we strive to provide quality education to all our students.

As the Head of Institution, I warmly welcome you to our school and thoroughly look forward for creating a productive environment for your child's holistic development.

LIFE @ SWS

Digital Teaching System for TLP (Teaching Learning Process)

Chemistry Lab

An invention/innovation room has been set up where the children get a chance to conduct experiments and also to explore the principles of science.

Biology Lab

Bio Lab provides an on-orbit biology laboratory that enables students to study the effects of microgravity and space radiation on unicellular and multicellular organisms, including bacteria, insects, seeds and cells.

Computer Lab

Enjoying the fruits of "Push Button age" we have separate computer labs for junior & senior students.

Music & Dance

Music encourages imagination and expression both and dance provides image of personal creation expression and emotional balance SWS provides the facility of western music, Indian music/dance class & Classical.

Sports

"A Healthy Body has a healthy mind." The development of mind and body go hand in hand so sports play an integral part of our curriculum.

Facility of indoor and outdoor sports is provided to the students to develop them and make them emotionally, physically and socially strong. Different specialized coaches for skating, football & Self defence.

Art & Craft

Art & craft is the supreme way of expressing emotions, desire, feelings and dreams while working in specialized rooms for nurturing hidden talent of every child

Parent Teacher Interaction

From time to time, the school organizes open house for parents to interact with the teacher & the school counsellor. The overall purpose is to enable positive collaborative efforts to build on the child's strengths. The school welcomes constructive suggestion and ideas from all parents to make their children's development more meaningful and real.

Counselling

Undergoing emotional, physical, mental and social changes, growing children quite often find themselves in stress and doldrums. To bail them out of such situations, a group of experienced Counsellors provide counselling to the tender minds.

FACILITIES

Boarding and De-boarding of the students under strict supervision.

Medical

Happiness is noting more than good health. The school has a well equipped clinic with a doctor and a nurse who are trained to handle general health problems and other emergency situations.

Enterprise Resource Planning (ERP)

'Enterprise Resource planning' in a web & IVR board system that enables parents to access students' information and continual progress in real time
